

SKILLS

JavaScript, React, Redux, HTML, CSS, Ruby, Ruby on Rails, Python, Java, Mongoose, MongoDB, Node.js, Express.js, SQL, SQLite3, PostgreSQL, Webpack, jQuery, jBuilder, Git, Heroku, Amazon Web Services

PROJECTS

Cloud Sound | (*React/Redux, Rails 5, PostgreSQL, SASS*)

[live](#) | [github](#)

Community driven music streaming application inspired by soundcloud.com

- Integrated Redux with HTML5 media web components to create a customized media playback experience for users.
- Designed the frontend data to be stored in a normalized state shape to reduce complexity and integrated the PostgreSQL database to utilize S3 from AWS for better performance and scalability.
- Leveraged SASS variables and modules in stylesheets to create a beautiful and flexible design

Taco Tuesday | (*Vanilla JavaScript, HTML5, CSS*)

[live](#) | [github](#)

Food themed matching game inspired by Lebron James, where the user has to match the ingredients of a customer's order

- Incorporated vanilla JavaScript with HTML5 to produce a fun, interactive visual experience.
- Manipulated DOM event listeners to work synchronously with HTML5's audio element to start background music and a sound effect once the user starts the game.
- Illustrated a simple and clean layout with CSS Flexbox properties.

Mastery | (*MongoDB, Express.js, React/Redux, Node.js, SASS*)

[live](#) | [github](#)

- Contributed as the frontend lead in a team with 4 developers, unifying the frontend design and react component hierarchy.
- Designed the UI/UX for the landing page and the user dashboard by hand before implementing into react components.
- Employed HTML5's canvas element to render a live, real-time analog clock to bring life into the landing page.

EXPERIENCE

Product Onboarding Specialist

Enjoy Technology

2017 - 2020

- Conducted in-home technical assistance for more than 1,500 clients, while upselling additional products and service at a 75% percent rate.
- Maintained partnership with companies such as Google, Apple, DJI, Magic Leap and Sonos.
- Developed and facilitated training for new and existing employees to target growth opportunities, resulting in a 20-30% average increase in sales metrics.
